By Mr. Polsley:

WHEREAS, It is a matter of common report that the Fish Commission of California has been derelict in its official duties and wasteful of public moneys; that it has neglected the development of the State fisheries, devoting its time instead largely to pernicious political activities; and

WHEREAS, The law provides that "all officers, boards of officers, commissioners, trustees, regents, and directors, required by law to make reports to the Governor or Legislature, except the Controller of State, must send the original draft of such reports to the Governor before the fifteenth day of September, in the year eighteen hundred and ninety-two, and in every second year thereafter"; and

WHEREAS, It appears that the said Fish Commission failed to obey the plain provisions of the law in the respect noted, rendering no report of its transactions, so far as the public is aware, until the second week in February, nineteen hundred and nine, when a so-called "preliminary report" of eight pages only, evidently prepared in great haste for the purpose of forestalling legislative inquiry into the affairs of said Commission, was made; and

WHEREAS, Said report contains little, if any, information showing where, to whom, or how the large sums of money appropriated for and collected by said Fish Commission have been disbursed; therefore, be it

*Resolved*, That the Speaker of the Assembly be, and he hereby is, authorized and directed to appoint a special committee of seven members of the Assembly, whose duty it shall be to make a full and complete investigation into the affairs of said

Fish Commission, for the purpose of ascertaining what disposition has been made of the funds appropriated for and collected by said Commission during the two fiscal years ending September, nineteen hundred and eight; and for the further purpose of inquiring fully and completely into the official work of said Commission, its officers, employes and attachés; that said committee shall have full power to and is hereby directed to send for all necessary persons and papers, to subpoena witnesses and compel their attendance, to take the testimony of witnesses under oath, to the end that the fullest inquiry may be had; to employ in such investigation a stenographic reporter, to prepare a report of such investigation at the earliest possible date and to have such report transmitted to the members of the Assembly, in order to enable the Assembly to act intelligently upon requests for appropriations for the use of said Fish Commission; and be it further

*Resolved*, That if the committee appointed pursuant to this resolution shall find that the gross abuses alleged to exist in the management of the affairs of the Fish Commission do so exist, the committee shall recommend that action be taken by the Legislature looking to the abolishment of said Fish Commission

Mr. Polsley moved that the resolution be adopted.

Mr. Leeds moved as a substitute that the resolution be referred to Committee on Fish and Game.

### THE RECALL, INITIATIVE AND REFERENDUM

SECTION 1 The holder of any elective office may be removed by the electors qualified to vote for the successor of the officer sought to be removed. The procedure to effect the removal of an incumbent of an elective office shall be as follows: A petition signed by electors entitled to vote for a successor to the incumbent sought to be removed, equal in number to at least twenty-five per centum of the entire vote cast at the last preceding general municipal election, demanding an election of a successor of the person sought to be removed shall be filed with the clerk, and said petition shall contain a general statement of the grounds for which the removal is sought.

The signatures to the petition need not all be appended to one paper, but said petition may be presented in sections. The number of signatures to each section shall

be at the pleasure of the person soliciting signatures to the same. Any qualified voter or taxpayer of the municipality shall be competent to solicit signatures. Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating that all the signatures to the attached section were made in his presence, and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name purports to be thereunto subscribed, and no other affidavit thereto shall be required. Each signature, the genuineness of which is not called in question by the sworn affidavit of the alleged owner thereof, shall be presumed to be genuine. Unless and until it be proven otherwise by official investigation, it shall be presumed that the petition presented contains the signatures of the requisite number of qualified voters. Each signer of said petition shall add to his signature his place of residence, giving the street and number.

Within ten days from the date of filing such petition the clerk shall examine and ascertain from the records of registration whether or not said petition is signed by the requisite number of electors entitled to vote, and if necessary the council shall allow the clerk extra help for that purpose, and the clerk shall attach to said petition his certificate showing the result of said examination. If, by the said certificate, the petition is shown to be insufficient, it may be amended by additional signatures within ten days from the date of said certificate. The clerk shall, within ten days after such amendment, make like examination of the amended petition and if his certificate shall show the same to be insufficient, it shall be returned to the person filing the same without prejudice, however, to the filing of a new petition to the same effect.

If the petition shall be found to be sufficient, the clerk shall submit the same to the council without delay, and the council shall thereupon order and fix a date for holding the said election, not less than thirty days nor more than forty days from the date of the clerk's certificate to the council that a sufficient petition is filed.

All arrangements for said election shall be made and the same shall be conducted, returned, and the results thereof declared, in all respects as are all other municipal elections; provided that if there be any conflict of provisions, this charter shall control.

Any person sought to be removed may be a candidate to succeed himself, and, unless he requests otherwise, in writing, the clerk shall place his name on the official ballot without nomination. In any such removal election, the candidate receiving the highest number of votes shall be declared elected. At such election, if some person other than the incumbent receives the highest number of votes, the incumbent shall thereupon be deemed removed from his office upon qualification of his successor. The successor of any officer so removed shall hold office during the unexpired term of his predecessor. In case the party who receives the highest number of votes shall fail to qualify within ten days after receiving notification of election the office shall be deemed vacant. If the incumbent receives the highest number of votes he shall continue in office. In case more than one councilman is sought to be removed, whose terms shall not expire at the same time, there shall appear on the ballot the date of the expiration of the respective terms and the offices of the councilmen to be elected for such different terms shall be deemed separate and distinct offices to be filled at such election.

SEC. 2. Any proposed ordinance may be submitted to the council by a petition signed by qualified and registered electors of the city equal in number to the percentage hereinafter required. The petition shall set forth a copy of the proposed ordinance, and the form of such petition, signatures, verifications and duties of the clerk in respect thereto, provided in section 1 of this article for petitions for recall shall apply to petitions of initiative.

If the petition accompanying the proposed ordinance be signed by qualified and registered electors equal in number to ten per cent of the entire vote cast at the last preceding general municipal election, the council must either pass such ordinance without alteration or submit the same to the electorate at the next regular municipal election that shall occur at any time after sixty days from the date of the clerk's certificate of sufficiency. But if such petition is signed by qualified and registered electors equal in number to twenty-five per cent of said votes and contains a request that such ordinance be submitted to a vote of the people at a special election, then the council must either pass the ordinance without alteration or submit the same to the electorate at a special election to be called within sixty days from the filing of such petition.

The ballots used when voting upon such proposed ordinance shall contain the words: "For the ordinance" and "Against the ordinance" (stating the nature of the proposed ordinance). If a majority of the qualified electors voting on said proposed ordinance shall vote in favor thereof, such ordinance shall thereupon become a valid and binding ordinance of the city. The council may at such election submit any amendment thereto that it may deem proper, and the ballots used at such election shall contain the words, "For the amendment," or "Against the amendment" of ordinance (naming the ordinance), and also stating the nature of the proposed amendment. If a majority of the qualified electors voting on said proposed amendment shall vote in favor thereof, such ordinance shall thereupon be deemed amended in accordance therewith. The council may also propose and submit any

ordinance to the electors, and such ordinance, upon receiving a majority of the votes of the electors, voting thereon, shall be deemed to have been adopted and shall be the valid and binding ordinance of the city. Any ordinance adopted by the electors under the provisions of this article can not be repealed or amended, except by a vote of the people obtained in the manner hereinbefore stated, unless such ordinance shall otherwise provide.

Any number of proposed ordinances may be voted upon at the same election in accordance with the provisions of this section; *provided* that there shall not be held under this section of the charter more than one special election in any period of twelve months.

SEC 3. Any ordinance or resolution other than such as may be required to be passed at a particular time or for the purpose of complying with a charter or statutory law and excepting such ordinance as may be declared by the council to be necessary as emergency measures for the immediate preservation of the public peace, health or safety, shall be subject to a referendum as herein provided; *provided* further that the petition for such referendum be filed within thirty days from the final passage of such ordinance or resolution.

Whenever a petition shall be presented to the council, asking that a particular ordinance named therein be submitted to a vote of the electors and signed as required for an initiative petition in section two of this article it shall be the duty of the council to submit the question of the approval or rejection of such ordinance or resolution to the electors at a regular or special election, and until such election is held and the ordinance approved by the electors, the provisions of such ordinance or resolution shall be suspended and inoperative.

All the proceedings relative to the submission of ordinances by initiative shall apply to ordinances submitted by a referendum petition, and the vote thereon shall be of the same force and effect as provided in section two.

#### ARTICLE VIII

##### THE RECALL, INITIATIVE AND REFERENDUM.

SECTION 1. Any elective officer may be removed by the electors qualified to vote for the successor of the officer sought to be removed. The procedure to effect the removal of an incumbent of an elective office shall be as follows: A petition signed by electors entitled to vote for a successor to the incumbent sought to be removed, equal in number to at least twenty per centum of the entire vote cast at the last preceding general municipal election, demanding an election of a successor of the incumbent sought to be removed shall be filed with the clerk, and said petition shall contain a general statement of the grounds for which the removal is sought.

The signatures to the petition need not all be appended to one paper, but said petition may be presented in sections. The number of signatures to each section shall be at the pleasure of the person soliciting signatures to the same. Any qualified voter or taxpayer of the municipality shall be competent to solicit said signatures. Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating that all the signatures to the attached section were made in his presence, and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name purports to be thereunto subscribed, and no other affidavit thereto shall be required. Each signature, the genuineness of which is not called in question by the sworn affidavit of the alleged owner thereof, shall be presumed to be genuine. Unless and until it be proven otherwise by official investigation, it shall be presumed that the petition presented contains the signatures of the requisite number of qualified voters. Each signer of said petition shall add to his signature his place of residence, giving the street and number.

Within ten days from the date of filing such petition, the clerk shall examine and ascertain from the records of registration whether or not said petition is signed by the requisite number of electors entitled to vote, and if necessary the council shall

allow the clerk extra help for that purpose, and the clerk shall attach to said petition his certificate showing the result of said examination. If, by the said certificate, the petition is shown to be insufficient, it may be amended by additional signatures within ten days from the date of said certificate. The clerk shall, within ten days after such amendment, make like examination of the amended petition, and if his certificate shall show the same to be insufficient, it shall be returned to the person filing the same without prejudice, however, to the filing of a new petition to the same effect.

If the petition shall be found to be sufficient, the clerk shall submit the same to the council without delay, and the council shall thereupon order and fix a date for holding the said election, not less than thirty days nor more than forty days from the date of the clerk's certificate to the council that a sufficient petition is filed.

All arrangements for said election shall be made and the same shall be conducted, returned, and the results thereof declared, in all respects as are all other municipal elections, *provided*, that if there be any conflict of provisions, this charter shall control.

Any person sought to be removed may be a candidate to succeed himself, and, unless he requests otherwise, in writing, the clerk shall place his name on the official ballot without nomination. In any such removal election, the candidate or candidates receiving the highest number of votes shall be declared elected. At such election, if some person other than the incumbent receives the highest number of votes, the incumbent shall thereupon be deemed removed from his office upon qualification of his successor. The successor of any officer so removed shall hold office during the unexpired term of his predecessor. In case the party who receives the highest number of votes should fail to qualify within ten days after receiving notification of election the office shall be deemed vacant. If the incumbent receives the highest number of votes he shall continue in office. In case more than one councilman is sought to be removed, whose terms shall not expire at the same time, there shall appear on the ballot the date of the expiration of the respective terms and the offices to be filled for such different terms shall be deemed separate and distinct offices to be filled at such election.

SEC. 2. Any proposed ordinance may be submitted to the council by a petition signed by qualified and registered electors of the city equal in number to the percentage hereinafter required. The petition shall set forth a copy of the proposed ordinance, and the form of such petition, signatures, verifications, and duties of the clerk in respect thereto, provided in Section 1 of this article for petitions for recall shall apply to petitions of initiative.

If the petition accompanying the proposed ordinance be signed by qualified and registered electors equal in number to ten per centum of the entire vote cast at the last preceding general election, the council must either pass such ordinance without alteration or submit the same to the electorate at the next general municipal election that shall occur at any time after thirty days from the date of the clerk's certificate of sufficiency. But if such petition is signed by qualified and registered electors equal in number to twenty per centum of said vote and contains a request that such ordinance be submitted to a vote of the people at a special election, then the council must either pass the ordinance without alteration or submit the same to the electorate at a special election to be called within sixty days from the filing of such petition.

The ballots used when voting upon such proposed ordinance shall contain the words "For the Ordinance," and "Against the Ordinance" (stating the nature of the proposed ordinance). If a majority of the qualified electors voting on said proposed ordinance shall vote in favor thereof, such ordinance shall thereupon become a valid and binding ordinance of the city. The council may at such election submit any amendment thereto that it may deem proper, and the ballots used at such election shall contain the words "For the Amendment," or "Against the Amendment," or ordinance (naming the ordinance) and also stating the nature of the proposed amendment. If a majority of the qualified electors voting on said proposed amendment shall vote in favor thereof, such ordinance shall thereupon be deemed amended in accordance therewith. The council may also propose and submit any ordinance to the electors, and such ordinance, upon receiving a majority of the votes of the electors voting thereon, shall be deemed to have been adopted and shall be the valid and binding ordinance of the city. Any ordinance adopted by the electors under the provisions of this article can not be repealed or amended, except by a vote of the people obtained in the manner hereinbefore stated, unless such ordinance shall otherwise provide.

SEC. 3. Any ordinance or resolution, other than such as may be required to be accordance with the provisions of this section; *provided*, that there shall not be held under this section of the charter more than one special election in any period of twelve months.

SEC. 3. Any ordinance or resolution other than such as may be required to be passed at a particular time or for the purpose of complying with a charter or statutory law, and excepting such ordinances or resolutions as may be declared by the council to be necessary as emergency measures for the immediate preservation of the public peace, health or safety, shall be subject to a referendum as herein provided: *provided further*, that the petition for such referendum be filed within sixty (60) days from the final passage of such ordinance or resolution.

Whenever a petition shall be presented to the council, asking that a particular ordinance or resolution named therein be submitted to a vote of the electors, and signed as required for an initiative petition in section two of this article, it shall be the duty of the council to submit the question of the approval or rejection of such ordinance or resolution to the electors at a regular or special election, and until such election is held and the ordinance approved by the electors the provisions of such ordinance or resolution shall be suspended and be inoperative.

All the proceedings relative to the submission of ordinances by initiative shall apply to ordinances submitted by a referendum petition, and the vote thereon shall be of the same force and effect as provided in Section 2

Every such lease granted or made hereunder, shall be subject to all rights of way over the tide and submerged land embraced therein for highways, streets, railways, and street and other railroads, as may from time to time be determined by the city council.

In any case, where the city of Los Angeles or its predecessors in interest or authority shall have executed any lease or grant, or any document purporting to be such, to any person or corporation, the water front, tide-lands, and submerged lands covered thereby, shall not be deemed to be subject to be again leased or granted by the city of Los Angeles under this section until such lease or grant shall have been cancelled or otherwise terminated, and until the city of Los Angeles shall have regained peaceable possession of such property.

He shall, on application of any person indebted to the city, holding money payable into the city treasury, or desiring to pay money therein, certify to the city treasurer the amount thereof, to what fund applicable, and by whom to be paid. He shall upon the deposit of the receipt of the city treasurer for money paid into the city treasury, charge the city treasurer with the amount received by him, and give the person paying the same a receipt therefor.

It shall be his duty to apportion among the several funds all public money at any time in the city treasury, not by law or ordinance specifically apportioned and appropriated, and forthwith notify the city treasurer of such apportionment or appropriation. He shall countersign and deliver to the proper officer all licenses.

He shall report to the council at the regular meeting of each week the condition of each fund in the city treasury and the amount drawn from each fund the preceding week.

He shall perform such other duties as shall be required of him by this charter or by ordinance. He shall devote his entire time to the duties of his office.

That Section 44 of the charter be amended to read as follows:

**CITY TREASURER.**

Sec. 44. It shall be the duty of the city treasurer to receive and keep all moneys that shall come to the city by taxation or otherwise, and to pay the same out on demands legally audited in the manner hereinafter provided; and without such auditing he shall disburse no public moneys whatever, except the principal and interest of the municipal debt when payable.

He shall receive no money into the city treasury unless accompanied by the certificate of the city auditor provided for in Section 43 hereof.

He shall issue receipts in duplicate to all persons paying money into the treasury.

One of which receipts shall be forthwith deposited with the city auditor.

He shall make a report at the close of each business day, to the auditor, showing all moneys received during the day, together with the number of each receipt given by him therefor, and what account and from whom received and to what fund applied.

He shall, on or before the seventh day of each month, make out and present to the council a full and complete statement of the receipts and expenditures for the preceding calendar month; and he shall make such special reports from time to time as may be required by the council.

The mayor, city attorney, city auditor, the finance committee of the council, or any special committee appointed by the council, separately or collectively, and with the aid of an accountant selected by such officer or committee, shall have the right and power to examine the books of the treasurer at all times; and the mayor, auditor or finance committee shall also have the right to inspect and count all public moneys under the treasurer's control, or on deposit elsewhere. Whenever the city shall provide a proper vault and safes in the city hall for the keeping of the city money, the treasurer shall keep said moneys in said vault, except as hereinafter provided. It shall be in the power of the council, by ordinance, at any time to require the city treasurer to devote his entire time to the duties of his office.

That Section 46 of the charter be amended to read as follows:

**CITY ASSESSOR.**

Sec. 46. It shall be the duty of the city assessor, in addition to any duty that may be elsewhere prescribed for him by this charter or by ordinance, to make out, within such a time as may be prescribed by ordinance of said city, either now in force or which may hereafter be passed in pursuance hereof, a full, true and correct list of all the property, both real and personal, taxable by law, within the limits of said city, with the valuation thereof, and assess the same to the persons by whom it was owned or claimed, or in whose possession or control it was, at 12 o'clock meridian on the first Monday of March next preceding.

Each taxpayer in said city shall make and deliver to the city assessor annually, and at such time as shall be provided for by ordinance, a statement under oath setting forth specifically all the real and personal property owned by such taxpayer, or in his possession or under his control at 12 o'clock meridian on the first Monday of March next preceding.

It shall be the duty of the assessor to collect the taxes on all personal property, when the owner of said property is not seized of real estate in said city sufficient to afford ample security for the collection of said taxes.

In all such cases he shall be governed in fixing the amount of the tax by the rate of the tax levy for the preceding year.

Immediately after fixing the assessment on such property he shall serve on its owner or owners a notice in writing, which shall specify the assessed valuation of the property, the rate per cent and the amount of tax payable, and contain a demand for the payment of said tax within three days after service of said notice. Said notice shall be served personally, or by leaving a copy of the same at the last known place of residence of the person whose property is so assessed.

Upon the expiration of said three days after such service, if the tax demanded still remains unpaid or payment thereof be not secured to the satisfaction of the city attorney and city assessor, the assessor shall forthwith proceed to collect the same by seizure and sale of any personal property owned by the delinquent.

The said sale shall be made by him in the manner provided in Sections 3791, 3792, 3793, 3794, 3795 and 3796 of the Political Code of the State of California, *provided*, that the newspaper referred to in Section 3792 shall be published in the city, and shall be designated by the council.

As soon as the rate is fixed for the year in which such collection is made, if it be found that a sum in excess of said rate has been collected, the excess must be repaid in the same manner as other demands against the city are paid, to the person from whom the collection was made, or to his assigns. And if a sum less than the rate fixed has been collected, the deficiency must be collected as other taxes on personal property are collected.

Should the board of equalization reduce the valuation for the same year of the property so assessed, the sum collected in excess of said reduced valuation must be repaid in like manner to the person from whom the collection was made, or to his assigns. And if the valuation of said property should be increased by said board, then the deficiency must be collected as other taxes on personal property are collected.

The assessor shall carefully note upon his assessment list, and also in a book to be kept by him for the purpose, all collections made by him under this section, and shall turn over to the city treasurer all money received immediately upon its receipt.

In case the said assessor shall fail to demand, and through his fault to collect, any and all taxes which by this section he is directed to collect, he shall be and become personally liable to the city for the amount of said delinquent taxes, with interest from the date of their assessment; and the council is authorized and directed to cause proper action or actions at law to be brought against said assessor and the sureties on his official bond to recover the same.

The mode of making out assessment lists, of ascertaining the value of property and of equalizing the same shall be such as is now, or may hereafter be, prescribed by the ordinances of the city.

When such list has been made out and the same returned to the council, as prescribed by such ordinances, the council shall, at the time and in the manner in such ordinance provided, sit and act as a board of equalization, and shall have, as regards the equalization of said list, powers similar to those conferred by law upon the board of supervisors of Los Angeles county, as a board of equalization of state and county taxes.

The meetings of said board of equalization shall be public, and notice of such meetings shall be given by publication at such time and in such manner as shall be provided by ordinance. The said board shall have the power, in its discretion, to increase or diminish the amount of any or all of the assessments on said lists, both as to real and personal property; *provided*, that before any such assessments shall be increased, due notice shall be given to the owner or owners of the property the assessed value of which is sought to be increased, and such owner or owners shall have the opportunity to be heard before the board, under oath, such notice to be regulated in all respects by ordinance.

After such list has been equalized, it shall be returned to the council, which shall forthwith fix the levy or rate per cent of taxes levied for all municipal purposes for that fiscal year.

Every tax so levied shall have the force and effect of a judgment against the person and property taxed, and shall be and constitute a lien upon the real property situated in said city so assessed or owned by the party against whom such assessment is made.

Every such assessment and the lien thereof shall have the force and effect of an execution duly levied upon all property owned by the party assessed, or by the unknown owner of such property when assessed to an unknown owner. The

judgment is not satisfied nor discharged until the tax assessed against the property and the owners is paid, or the property sold for the payment thereof.

The said corporation shall have such other rights, claims and liens for the amount of such municipal taxes as may now or hereafter be given to or exercised by the people of the State of California for and on account of the assessment of state and county taxes levied in Los Angeles County.

The mode and manner of collecting such municipal taxes, and enforcing such tax lien, and the proceedings thereafter, shall substantially be the same as the mode and manner at the time prescribed by law for the collection of state and county taxes in said county; *provided, however*, that the council may, by ordinance, have the power to regulate the time or times of the collection of said taxes within each fiscal year, and prescribe by what officers the respective duties appertaining to such collection and enforcement shall be performed. All such proceedings, sales, certificates and conveyances had, made and executed by them in pursuance thereof, shall be of like force, effect and validity as is or may hereafter be given by law to like proceedings and acts in the matter of the collections of state and county taxes in said county.

That Section 205 of the charter be amended to read as follows:

Sec 205 The registers used at any election held in pursuance of this charter shall be registers used at the last preceding general state election in the precincts in which such municipal election is held, together with supplemental registers showing all additional registrations, transfers, and changes, since the closing of registration for such general state election. It shall be the duty of the county clerk of the county of Los Angeles to furnish such registers, together with such supplemental registers, showing all additional registrations, transfers and changes since the closing of registration for the last preceding general state election, with proper indices thereto, to the city clerk of said city at least five days before the holding of such municipal election.

It shall, by ordinance, forbid the erection or display on any building or property of the city, of any banner, device or flag of any state or nation except that of the United States, the State of California, or the city of Los Angeles.

The council may by ordinance authorize the expenditure of money, not to exceed the sum of five thousand dollars, in any one fiscal year, for the proper celebration of the anniversary of the declaration of national independence, and such other public celebrations, events, or demonstrations as the council may deem proper.

#### *Charter Amendment Number Thirty-one.*

That a new section be added to the charter, immediately after Section 190 thereof, to be designated as Section 190½, and to read as follows:

#### UNFINISHED BUSINESS.

Assembly Bill No. 196—An Act to provide county library systems.

Mr. Sackett moved that the Speaker appoint a select committee of one to amend the bill as follows:

##### AMENDMENT No. 1.

Amend by striking out all of Section 2, of printed bill, and inserting in lieu thereof the following:

Section 2. The board of supervisors of any county may submit the question of establishing a county library system to a vote of the electors of such county in the following manner:

"They shall, not less than fourteen days before the annual election of school trustees, send notices, to the board of trustees of each school district in the county, declaring that a vote on the question of establishing a county library will be taken at the coming election of school trustees. The trustees shall post such notice in three public places within the district. The board of supervisors shall thereupon prepare two sets of ballots, one reading "for a county library" and the other "against a county library", and send a sufficient number of them to the board of school trustees in each school district in the county. These ballots shall be kept on hand at the place where said election is held, and each elector voting at such election may use one of those ballots to express his wishes regarding the establishing of a county library. Such election for the establishment of a county library shall be conducted substantially in the manner prescribed for the election of school trustees, except that the result shall be certified to the county board of supervisors, instead of the county superintendent of schools.

"In cities where no election for school trustees is held on the day on which such elections are held in other school districts of the county, the county board of supervisors may order a special election on the question of establishing a county library, to be held on the same day as in the school districts outside of such city, and be conducted substantially as elections for the issue of county bonds are now conducted.

"After the certificates of the election officers have been received by the county board of supervisors, the said board shall canvass and declare the result, and thereafter, if a majority of the votes cast are for a county library, may pass an ordinance establishing a county library as herein provided."

##### AMENDMENT No. 2

Amend Section 3 of printed bill so as to read as follows.

"Section 3. Not less than five days before any election regarding the establishing of a county library, as provided in section two of this Act, the board of trustees, common council, or other legislative body of any incorporated city or town in the county, or the board of trustees of any library district, may notify the board of supervisors that such city, town, or library district, does not desire to participate in the county library system, and thereafter such city, town, or library district shall not participate in such election, and its inhabitants shall not be entitled to the benefits of such county library system when established, and the property within such city, town, or library district shall not be taxed for county library purposes. But such notice may at any time be withdrawn by such city or library district."

## AMENDMENT No. 3.

Amend by striking out all of Section 5, page 2, of printed bill, and inserting in lieu thereof the following.

"Section 5. No person shall be eligible for the office of county librarian unless he has received, prior to his election, from the State Librarian, or from the librarian of the University of California, or the Leland Stanford Junior University, a certificate to the effect that in the opinion of such librarian he is well qualified for the office. If at any time there shall be established by law in this State a system of certification of qualified librarians, each county librarian elected thereafter for a first term must hold a proper certificate provided by such system, in place of the certificate above mentioned in this section. The salary of the county librarian shall, in the counties of the first to tenth classes, be two thousand four hundred dollars per annum; in the counties of the eleventh to twenty-ninth classes, two thousand dollars per annum; in counties of the thirtieth to fortieth classes, one thousand five hundred dollars per annum; in counties of the forty-first to fifty-fourth classes, one thousand dollars per annum; and in counties of the fifty-fifth to fifty-eighth classes, seven hundred and fifty dollars per annum. The county librarian shall also be allowed his actual and necessary expenses incurred in traveling on the business of his office."

Any charge, rate, rule, regulation, order or decision alleged in such complaint to be unjust, illegal, unreasonable, injurious or discriminatory as between or against places or persons, shall be a proper subject for hearing, investigation, order and decision of said commission, notwithstanding any previous act, order or decision of said commission with respect to, or in connection therewith. Upon such complaint being filed with the commission a copy of the same shall be served on the railroad or transportation company concerned, and the commission shall fix a time and place when and where the said company shall answer the same. Thereafter the commission shall investigate and determine such complaint, under such rules and modes of procedure as it may adopt. If the commission shall find that there has been a violation of any rule, regulation, order or decision of the commission, it shall determine if the same was willful; if it shall find that such violation was not willful, it may call upon said company to pay and satisfy the damage done to the complainant by such violation, if any such damage should appear, stating the amount of such damage, or shall decree that said company shall conform with the order, rule or regulation of the commission, as the case may be, and if the said company should comply with such order or decision of the commission within the time specified by the commission in such order or decision, judgment of satisfaction shall be thereafter entered by said commission; but if said company shall not pay said damage or conform with the rule, regulation, order or decision of the commission, within the time specified by said commission, or if the commission shall find such violation to be willful, it shall thereupon impose the fine provided by law for such violation, and shall thereupon institute such action or proceeding in

If any complaint filed under this section shall allege that any such charge, rate, rule, regulation, order or decision complained of is unjust, illegal, unreasonable, injurious, or discriminatory as between or against places or persons, then said commission, after a full hearing upon said complaint, shall have power to suspend, vacate or annul any and all former acts, orders or decisions of said commission concerning said charge, rate, rule, regulation, order or decision so complained of, and to make, establish and enforce such other or different charge, rate, rule, regulation or order as it shall determine to be just and proper. All damage awarded by the commission under the provisions of this section shall be collected by action therefor instituted by the person to whom such damage has been awarded, if such damage remains unpaid after the time fixed by the commission for payment thereof. Actions or proceedings by the commission to enforce any order or decision or by any party to collect any award of damages, shall be instituted in the proper court in the county, or city and county in which the violation complained of occurred, or in any county or city and county into or through which said railroad or transportation may run or operate. On motion of Mr. McClellan, Assembly Bill No. 1066 was withdrawn from the Committee on Engrossment and Enrollment, for the purpose of correction.

#### GOVERNOR'S MESSAGE.

The following message from the Governor was received and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,  
 SACRAMENTO, February 26, 1909.

*To the Assembly of the State of California:*

I have the honor to return herewith Assembly Bill No. 172 entitled "An Act to allow unincorporated towns and villages to establish, equip and maintain public libraries; to provide for the formation, government and operation of library districts; the acquisition of property thereby, the calling and holding of elections in such districts; the assessment, collection, custody and disbursement of taxes therein, and to create boards of library trustees" without my approval for the following reasons:

Section 12 of said Act provides that the board of library trustees shall furnish to the board of supervisors on or before the first day of September, an estimate of the money necessary to lease temporary quarters, purchase a suitable lot, procure plans and specifications and erecting a suitable building, furnishing and equipping the same, fencing and ornamenting the grounds, and of conducting and maintaining the same for the ensuing fiscal year.

Section 14 requires the board of supervisors at the time of levying county taxes, to levy a special tax upon all the taxable property within the limits of said library district sufficient in amount to provide for the various purposes specified in Section 12. The rate of taxation must be ascertained by deducting fifteen per cent from the assessed valuation of property in the district for anticipated delinquencies, and then dividing the sum asked for by the remainder of such aggregate.

To make the raising of the amount asked for more definite and positive, it is provided in Section 15 that should the supervisors fail to levy the taxes as provided in Section 14, it shall be the duty of the county auditor to make such levy.

Under Section 12 of Article XI of the Constitution, the Legislature can not impose a tax upon counties, cities, towns, or other public or municipal corporations or upon the inhabitants or property thereof, for county, city, town or other municipal purposes, but may, by general laws, vest in the corporate authorities thereof, the power to assess and collect taxes for such purposes. The Legislature can not prescribe a procedure through which such taxes would inevitably be levied, without leaving any discretion in the local authorities. The tax levying power in a county is vested in the board of supervisors. The present Act is apparently unconstitutional in that it authorizes the board of library trustees to furnish to the board of supervisors an estimate of the amount necessary to be raised by taxation, and makes it obligatory upon the supervisors to proceed to fix a rate which will realize the amount of this estimate. No discretion is left in the board of supervisors, and to more effectually prevent them from exercising any discretion, it is expressly provided that any effort to depart from the estimate submitted shall be corrected by the county auditor. The board must base its tax rate upon the amount asked for. No power is given them to hear and determine the amount necessary. They are arbitrarily required to raise the amount prescribed by a body having no legislative powers.

In other words, the Legislature has attempted to delegate to a non-legislative board the power to impose taxes in a public corporation, through the medium of a fixed and certain estimate, when the Constitution expressly prohibits the Legislature itself from imposing such taxes.

A further objection to the bill is contained in Section 39 of this Act which provides that if the board of supervisors fail to make the levy necessary to pay the bonds or interest thereon, the State Board of Equalization shall at their next session, and at each annual equalization thereafter, add to the State rate to be levied in said district, a sufficient rate to realize the amount of principal or interest past due prior to the next levy. This provision is very apparently in violation of Section 13 of Article XI of the Constitution of this State.

J. N. GILLET,  
 Governor of the State of California.

The question being put: "Shall the bill become a law notwithstanding the veto of the Governor?"

The roll was called, and the question lost by the following vote:

AYES—None.

NOES—Messrs. Barndollar, Baxter, Beardslee, Beban, Black, Bohnett, Butler, Callan, Cattell, Cogswell, Collum, Costar, Cronin, Cullen, Dean, Drew, Feeley, Flavella, Fleisher, Flint, Gerdes, Gibbons, Gillis, Greer, Griffiths, Hammon, Hanlon, Hans, Hawk, Hewitt, Hinkle, Holmquist, Hopkins, Irwin, Johnson of Sacramento, Johnson of Placer, Johnston of Contra Costa, Kehoe, Maher, McClellan, McManus, Melrose, Mendenhall, Moore, Mott, Nelson, Odom, Otis, O'Neill, Perine, Polsley, Preston, Pulcifer, Rutherford, Schmitt, Silver, Stuckenbruck, Telfer, Transue, Wagner, Wheelan, Whitney, Wilson, and Mr. Speaker—64.

The following report of standing committee was received and read:

## MAJORITY REPORT OF COMMITTEE ON UNIVERSITIES.

**MR. SPEAKER:** We, the majority of the members of your Committee on Universities, which was granted leave of absence to visit the University of California, beg leave to report as follows:

All the members of the committee visited the University of California at Berkeley on Monday and Tuesday, February 1, and 2. They also personally visited the lands proposed to be purchased, should this Legislature grant the necessary appropriation therefor, and they examined the same in detail, with particular reference to their location and facilities. They also visited the various buildings in the University grounds and many of the classes then in session; also many of the laboratories.

We desire to make some observations relative to Assembly Bills Nos. 679, 681 and 683. Relative to bill 679, calling for an appropriation of \$300,000 for the purchase of lands in and about what is commonly known as "Strawberry Canyon," it is our opinion that the acquisition of this watershed will be of great value and benefit to the University in more ways than one. The following reasons for this opinion merit special attention:

1. The acquisition of this land will provide the University with an adequate water supply, which is lacking at the present time. All the water now used in and about the University, for sanitary, drinking, and irrigation purposes, is purchased from the water company, and costs about \$5,000 per annum. The water so purchased is not sufficient to provide the buildings of the University with any protection against fire. Many of the departments are housed in buildings which are not fireproof, but which contain valuable machinery, specimens and collections, on which no insurance is carried. It is proposed, if this water supply should be obtained, to install a complete fire fighting system, which will remove the danger of a general conflagration there.

2. At present, the scarcity and high price of water prevent irrigating the grounds and keeping them fresh and green during the summer months. The proposed system will provide an ample supply of water for such purposes.

3. The proposed new system will furnish absolutely pure water for drinking purposes, which is not now the case.

4. The canyon in question, containing about 650 acres, will enable the colleges of forestry, engineering, agriculture and dairying, to enlarge the practical work of their respective departments in close proximity to the University itself.

5 The acquisition of these lands was contemplated by the Legislature of this State by legislative enactment in 1875. (See Stats. of 1875 and 1876, page 816). We are informed that the University has not heretofore acquired title to these lands because of the inability of the Regents to procure the consent of the owners thereto to sell. Such consent has now for the most part been obtained.

6. It is proposed to construct in the canyon a reservoir with a capacity of seventy to seventy-five million gallons, and it is estimated that the annual water supply available from such reservoir will be one hundred million gallons. The University now consumes about eighteen million gallons a year, which is largely inadequate to meet its actual needs. We believe, however, that the sum of \$300,000 is too much, and therefore recommend an amendment to bill No. 679, reducing the amount to \$200,000.

With relation to bill No. 681, asking for an appropriation of \$200,000 for the construction of a new agricultural building, we have found that the building in which the agricultural college is now housed is crowded with implements, apparatus, and necessary laboratory and lecture room furniture, and only a few people can work therein at one time. The building was originally constructed for the use of a small number of students. Since its construction the number of students in that college has increased tenfold. Other branches of the work, intimately connected with the agricultural college, and which should therefore be accommodated under the same roof, are necessarily housed in separate and outside buildings, which are absolutely inadequate. We realize that this is an extremely important branch of the educational system of this State, and believe that the students, and ultimately the State itself, will be materially benefited by providing a proper building for the agricultural college.

With reference to bill No. 683, asking for an annual tax of three cents on each one hundred dollars of value of the taxable property of the State for the permanent support and improvement of the University we find as follows:

The State provides two cents on each one hundred dollars of taxable valuation, and for the past few years the institution has fallen behind in its running expenses about \$50,000 per annum. We further find that for the most part the professors, instructors and teachers (other than heads of departments) are receiving small and inadequate salaries. In order to construct any new building, or to enlarge any present building, in the grounds, it is necessary for the Regents to ask biennial appropriations from the Legislature.

If the general tax for the University be increased by one cent it will mean an additional permanent amount for the University of about \$200,000 annually. Of this amount \$50,000 per annum will be used to cover the deficit in running expenses that now exist, \$50,000 per annum will be used in the increase of the salaries of the professors, instructors and teachers above referred to and operating expenses; and \$100,000 per annum will be placed in a permanent building fund, out of which fund the institution can construct new buildings, and alter, repair and add to the present buildings within the grounds. We believe that if this measure is passed the permanent income of the University will be adequate to maintain it for many years to come, without the necessity of asking, at each session of the Legislature, for special appropriations for erecting new buildings or repairing the present ones.

We therefore recommend that this bill be passed as a measure of great necessity to the institution.

The committee have already reported their recommendations on the other bills before them.

As a result of our inspection and investigation, we find that the University is being conducted in a competent and efficient manner and that the members of the faculty are properly attending to their duties.

The University is governed by a board of regents composed of business and professional men of broad ideas and wide experience, and we believe that they are thoroughly able to satisfactorily determine, and do satisfactorily determine, how the internal affairs of the institution should be regulated and conducted.

Regarding a rumor that certain members of the faculty were actively participating in partisan politics in connection with their University work, we find that such rumor has no real foundation in fact, and that, in obedience to the Constitution of the State, the University is entirely independent of all political or sectarian influence.

BOHNETT,  
YOUNG,  
HANLON,

Dated March 1, 1909.

Majority of Committee on Universities

I subscribe to the foregoing report, with the exception of that part referring to the appropriation for a new agricultural building at Berkeley. Concerning said agricultural building, my district desires that said agricultural building should be constructed upon the University Farm at Davis.

LAWRENCE WILSON.

#### MINORITY REPORT OF COMMITTEE ON UNIVERSITIES.

MR SPEAKER: The minority of your Committee on Universities, which was granted leave of absence for the purpose of visiting the University of California, begs leave to report as follows:

We visited the University of California, at Berkeley, on Monday and Tuesday, February 1 and 2. The entire committee personally visited the lands which are proposed to

be purchased, provided this Legislature grants the necessary appropriation therefor, and examined the same in detail, with particular reference to its location and facilities. We visited the various buildings in the University grounds, and many of the classes then in session; also many of the laboratories.

As a result of our inspection we desire to state that, generally speaking, the institution is being conducted in a competent and efficient manner. There are, however, some suggestions which we wish to make relative to matters observed during our visit, which will hereafter be referred to specifically.

Relative to bill No 679, calling for an appropriation of \$300,000 for the purchase of lands in and about what is commonly known as "Strawberry Canyon," it is our opinion that the acquisition of this watershed will be of great value to the University in more ways than one. The following reasons for this opinion merit special attention:

1. The acquisition of this land will provide the University with an adequate water supply, which is lacking at the present time. All the water now used in and about the University for sanitary, domestic, and irrigation purposes, is purchased from the water company, and costs about \$5,000 per annum. The water so purchased is not sufficient to provide the buildings of the University with any protection against fire. Many of the departments are housed in buildings not fireproof, and which contain valuable specimens, apparatus, and machinery upon which no insurance is carried. It is proposed, if this water supply be obtained, to install a complete fire-fighting system, which will remove the danger of any general conflagration there.

2. At the present there is no way of irrigating the grounds and keeping them fresh and green during the summer months, on account of the scarcity and high price of water. The proposed new system will provide an ample supply of water for constant irrigation of the grounds.

3. The proposed new system will furnish absolutely pure water for domestic purposes, which is not now the case.

4. The canyon in question, containing about 650 acres, will enable the colleges of forestry, engineering, agriculture, and dairying to indulge in the practical work of their respective departments, close to the University itself.

5. The acquisition of these lands was contemplated by the Legislature of this State by a legislative enactment in 1875. (See Stats 1875 and 1876, page 816.) We are informed that the University has not heretofore acquired possession of these lands because of the inability of the Regents to procure the consent of the owners thereof. Such consent has now been obtained in some cases, and the principal owners have substantially agreed to sell to the State. The remainder of the land can be acquired by condemnation proceedings.

6. It is proposed to construct in the canyon a reservoir with a capacity of seventy to seventy-five million gallons, and it is estimated that the annual water supply available from such reservoir will be one hundred millions of gallons. The University now consumes about eighteen million gallons of water a year, which is totally inadequate for its actual needs. We believe, however, that the sum of \$300,000 is excessive, and this committee has therefore recommended an amendment to bill No 679, reducing the amount to \$200,000.

With relation to bill No 681, asking an appropriation of \$200,000 for the construction of a new agricultural building, we have found that the building in which the agricultural college is now housed is crowded with implements, apparatus, and necessary laboratory and lecture room furniture, and only a few students can work therein at one time. The building was originally constructed for the use of a small number of students. Since its construction the number of students in that college has increased tenfold. Other branches of the work, intimately connected with the agricultural college, and which should, therefore, be accommodated under the same roof, are necessarily housed in separate and outside buildings, which are absolutely inadequate. We realize that this is an extremely important branch of the educational facilities of this State, and believe that the students, and ultimately the State itself, will be materially benefited by providing a proper building for the agricultural college.

With reference to bill No 683, asking for an annual tax of three cents on each one hundred dollars of value of the taxable property of the State for the permanent support and improvement of the University, we find as follows:

The State provides two cents on each one hundred dollars valuation, and for the past few years the institution has fallen behind in its running expenses about \$50,000 per year. We further find that for the most part, the professors, instructors, and teachers (other than heads of departments) are receiving small and inadequate salaries. In order to construct any new building, or to enlarge any present building in the grounds, it is necessary for the Regents to ask biennial appropriations from the Legislature. If the general tax for the University be increased by one cent, it will mean an additional permanent amount for the University of about \$200,000 annually. Of this amount \$50,000 per annum will be used to cover the deficit in running expenses that now exists, \$50,000 per annum may be used in the increase of the salaries of professors, instructors, and teachers, above referred to, and operating expenses, and \$100,000 per annum will, according to an amendment to this bill, proposed by the committee, be placed in a permanent building fund, out of which fund the institution can construct new buildings, and alter, repair, and add to the present buildings within the grounds. We believe that if this measure is passed, the permanent income of the University will be adequate to maintain it for many years to come, without the necessity of asking for special

appropriations at each session of the Legislature, for the purpose of erecting new buildings or repairing the present ones.

We therefore recommend that this bill be passed, as amended as a measure of great necessity for the advancement and welfare of this institution.

It has been brought to the attention of certain members of this committee, that some of the faculty have been occupying their time in matters not connected with the University, and to the detriment of the institution. We asked the President of the University and the Regents for information as to any contracts which might be in existence between members of the faculty and the regents, and learned that there never has been any contract, verbal or written, between any professor, or any member of the faculty, and the Regents, or the President of the University. We were further informed that when professors are employed there is no understanding as to what hours they shall devote to the University work, and no special agreement as to what their duties shall consist of. I believe that this is not good practice, for it leaves the question of what work they are supposed to do, entirely open and not subject to investigation or inspection by either the regents or by the State of California, through their representatives, the Legislature.

I furthermore think, and therefore suggest, that some agreement verbal or written, should be had between the President of the University and the various instructors and professors, at the time they are employed.

Regarding the rumors that some members of the faculty had been using their positions and titles at the University in furtherance of the interest of political parties and factions thereof, we were told that this matter had been looked into by the President of the University and the Regents, and they assured us that they have taken and will take the necessary steps to prevent any recurrence of such practice.

The Constitution of the State of California provides (article nine, section nine) that "the University shall be entirely independent of all political or sectarian influence," and I desire to call the attention of the faculty and the Regents to this enactment of the law and, deeming it for the best interests of the institution, I strongly urge that in the future this provision will be strictly complied with, and that in the performance of their duties in and about the University each and every member of the faculty shall refrain from indicating that they are in favor of or opposed to any political party or faction thereof.

Respectfully submitted

SCHMITT,  
Minority of Committee on Universities.

Said action shall in all respects be subject to and governed by such provisions of the Code of Civil Procedure now existing or that may be hereafter adopted, as may be applicable thereto, except in the particulars otherwise provided for in this Act.

Sec. 3. Section eight of said Act is hereby amended to read as follows:

Section 8. When all parties defendant to the action have answered, or have been served with summons, and their default entered, the plaintiff or any party defendant to the action whose default has not been so entered, may, upon five days' notice to the parties, except defendants in default, move the court to set the action for trial. If, upon the hearing of such motion, a trial by jury or by the court without a jury is not demanded by the defendants, or any of them, or by the plaintiff, such trial shall be deemed to be waived, and the court must appoint three disinterested persons referees, to ascertain the compensation to be paid such defendants so waiving a trial by a jury, or by the court without a jury. Such referees must be residents of the municipality where such improvement is to be made, and over the age of twenty-one years, and must take and file with the court an oath to discharge their duties faithfully and impartially. If any

SEC. 5. Section ten of said Act is hereby amended to read as follows:

Section 10. For the purpose of assessing the compensation and damages, the right thereto shall be deemed to have accrued at the date of the order appointing referees or of the order setting the cause for trial, as the case may be, and its actual value at that date shall be the measure of compensation for all property to be actually taken, and the basis of damages to property not actually taken, but injuriously affected, in all cases where such damages are allowed by the provisions of this act. No improvements placed upon the property proposed to be taken, subsequent to the date of the publishing of the notice of the passage of the ordinance of intention, shall be included in the assessment of compensation or damages.

The referees, or court, or jury, as the case may be, shall find separately

First The value of each parcel of property sought to be condemned, and all improvements thereon pertaining to the realty, and of each separate estate or interest therein;

Second: If any parcel of property sought to be condemned is only a part of a larger parcel, the damages which will accrue to the portion not sought to be condemned, and to each separate estate or interest therein, by reason of its severance from the portion sought to be condemned, and the construction of the improvement in the manner proposed by the plaintiff. Such damages must be fixed irrespective of any benefit from such improvement.

SEC. 6. Section eleven of said Act is hereby amended to read as follows:

Section 11. Upon the filing of such report the court must, upon motion of any party, appoint a day for hearing the same, not less than twenty days thereafter. Notice of the time and place of said hearing must, at least ten days before the time so appointed, be served on all the other parties, except defendants whose default has been entered. In addition to the notice hereinbefore provided, the clerk of the court must give notice of the filing of said report, and of the time and place appointed for the hearing of the same, to all persons owning or having an interest in any property included within the assessment district for said improvement described in the ordinance of intention, by causing said notice last mentioned to be published for five days in a daily newspaper, published and circulated in the city; or, if there be no such daily newspaper, than by two insertions in a weekly newspaper so published and circulated. Any publication of such notice shall commence at least ten days before the time appointed for the hearing of the report. Said notice shall require all persons owning or having an interest in any property included within said assessment district for said improvement to intervene in said action, and file, in the office of the clerk of said court, his exceptions in writing to said report, if any he has, specifying the grounds upon which such exceptions are based. Said notice shall also contain a description of the said assessment district as set forth in the ordinance of intention. At any time within not less than one day prior to the hearing, any person not a party to the action, owning or having an interest in any property included within said assessment district, may intervene in the action, and file his exceptions in writing to said report, specifying the grounds upon which such exceptions are based; and any such person so intervening may appear and contest the said report, and introduce evidence in support of such exceptions.

If there be a trial of the action by a jury, or by the court without a jury, the clerk of the court must give notice of the time and place of such trial to all persons owning or having an interest in any property within said assessment district for said improvement. Said notice shall be published in the same manner and for the same time as the notice hereinbefore in this section required to be given by said clerk, and shall require all persons owning or having an interest in any property included within said assessment district for said improvement, to intervene in the action, and to appear at the trial thereof and introduce evidence relative to the compensation and damages to be awarded to the defendant therein. At any time within not less than one day prior to the trial, any person not a party to the action, having an interest in any property included within said assessment district, may intervene in the action, and, upon the trial thereof, may appear and introduce evidence relative to the compensation and damages to be awarded to the defendant therein. The cost of the publication of the

notices required by this section shall be paid by the plaintiff, and allowed as costs in the action.

When a time has been appointed for hearing the report of the referees, or for the trial of the action, and notice thereof has been given by the clerk by publication as in this section provided, if the hearing or trial be postponed or continued by the court to any subsequent date, no such notice need be given by the clerk of the hearing or trial upon any such postponement or continuance.

SEC. 7 Section twelve of said Act is hereby amended to read as follows:

Section 12. Upon the confirmation of the report of the referees, or receipt of the verdict of the jury, or the filing of the findings of the court, the court shall make and enter an interlocutory judgment in accordance with such report, verdict or findings, adjudging that upon payment to the respective parties, or into court for their benefit, of the several amounts found due them as compensation, and of the costs allowed to them, the property involved in the action shall be condemned to the use of the plaintiff, and dedicated to the use specified in the complaint. The court shall allow to the referees, as costs to be paid by the plaintiff, a reasonable compensation for their services, the amount of which compensation shall be fixed by the court, upon the hearing of the report, and their necessary expenses.

SEC. 8. Section fourteen of said Act is hereby amended to read as follows:

Section 14. The city council may, at any time prior to the entry of the interlocutory judgment, abandon the proceedings by ordinance, and cause the said action to be dismissed without prejudice.

SEC. 9. Section sixteen of said Act is hereby amended to read as follows:

Section 16. The city engineer shall deliver said diagram to the street superintendent, and shall endorse thereon the date of such delivery. The street superintendent upon receiving the said diagram shall proceed to assess the total expenses of the proposed improvement upon and against the lands, including the property of any railroad or street railroad, within said assessment district, except the land to be taken for such improvement, in proportion to the benefits to be derived from said improvement. The street superintendent shall complete said assessment within sixty days after the receipt by him of said diagram; *provided, however, that the city council may by order extend the time for completing said assessment for a period not exceeding sixty days additional.* The total expense of the improvement so to be assessed shall include the amounts awarded to the defendants by the interlocutory judgment in the action for condemnation together with their costs, the compensation and expenses of the referees as allowed by the court, and all other costs of the plaintiff in such action, the expenses of making the assessment, and all expenses necessarily incurred by said city, in connection with the proposed improvement, for the publication of ordinances, posting and publication of notices for maps, diagrams, plans, surveys, searches and certificates of title to the property to be taken, and all other matters incident thereto.
